

# Embedding Library Links

## Introduction

When sharing a link to one of the Library resources with students, you will need to do two things:

1. Locate or generate the item's persistent, or stable, address.
2. Use the college's proxy server address.

## Proxy Server Address

When anyone connects to a Library resource from *off campus*, they are first directed to a proxy server. This server requires you to log in (using your college EazyLogin username and password) and verify that you are faculty, student or staff.

For students to be able to access a link from off campus, you will need to add Great Bay Community College's proxy server address to the beginning of the persistent link.

Once you have acquired a persistent link, add this string before it:

<https://ezproxybcc.ccsnh.edu/login?url=>

*Example:* You have copied a persistent link from Ebsco.

<http://search.ebscohost.com/login.aspx?direct=true&db=fth&AN=58537079&site=ehost-live>

The link you must provide for students is:

<https://ezproxybcc.ccsnh.edu/login?url=http://search.ebscohost.com/login.aspx?direct=true&db=fth&AN=58537079&site=ehost-live>

Once they click on this link, students on campus will be taken directly to the article. If they are off campus, they will be required to sign in using their EasyLogin (email & Blackboard) username and password.

## Finding Persistent Links

### Electronic Books (E-books)

Ebrary	Simply copy the URL from your address bar. This is the persistent link to the book. If you need to link to a specific chapter, change the end of the URL to <a href="#">page=x</a> where x is the page on which the desired chapter begins.
EBSCO E-books	From within the Detailed Record for a book, select <b>Permalink</b> on the right hand side.
Credo Reference	At the end of any article, look for the citation box (outlined in grey). The default (APA) citation will include the persistent link.
Benezit Dictionary of Artists	Within an entry, select the <b>Cite</b> button in the top right corner. Copy the persistent link from any citation.

ACLS Humanities E-books	Scroll to the bottom of any book's <b>Title Record</b> , and look for the <b>URL</b> field.
Ovid ebooks	From any page in an Ovid book, look for <b>Email Jumpstart</b> at the top right hand corner of the page. Selecting this option will generate a "jumpstart" (persistent) link for you to use.
STAT!Ref & STAT!Ref RN	At the top of the page, select <b>Link to page</b> (under the Logout button). Click <b>Select All</b> to highlight, then copy the persistent link.

## Databases

Ebsco	From within the Detailed Record for an article, select <b>Permalink</b> on the right hand side.
Proquest	Click on the title of an article in the results list. From the document view, scroll down to the bottom of the screen and copy the <b>Document URL</b> .
JSTOR	At the top of any article page, copy the <b>Stable URL</b> .
Science Direct	Within the record for an article, at the top of the Abstract, you will see the term <b>doi</b> followed by an address. Right click on the link, and copy the <i>link address</i> . This is your persistent link.

## Other Electronic Resources

MarketResearch.com	Copy the URL in the address bar of your browser.
CQ Researcher	Within a report, select <b>Cite Now!</b> at the top of the page. Select <b>Bluebook</b> . Copy the link included in the citation.
Points of View	When viewing a "Point of View," the link will be in the menu at the top, labeled <b>Persistent link to this record (Permalink)</b> .
Films on Demand	Underneath each video, you will see the <b>Title URL</b> . This is the persistent link.
VAST	When viewing a video, select <b>Embed/Link</b> . A box will pop up with the persistent link.
Naxos Music Library	Within an album, select <b>Show Static URL</b> on the left. This will display a different URL for each song.
AtoZMapsOnline	Copy the URL in your address bar.
Global Road Warrior	Copy the URL in your address bar.
Culturegrams	Copy the URL in your address bar.
