

AUTOMOTIVE TECHNOLOGY

Certificate

The Automotive Technology Certificate provides students with skills and knowledge required for entry-level technicians performing inspection, diagnostics, maintenance and repair on automobiles and light trucks. Students use investigative skills as they learn to locate problems, use a variety of power tools as well as hand tools and diagnostic tools as they work on parts, and work with technical reference materials. Applied math and computer skills are incorporated throughout the curriculum. Completion of the certificate prepares students for Student Certification ASE exams in some areas and entry level employment in the field.

The Automotive Technology Certificate is offered at an off-premises location and can be completed in three semesters.

Admissions Criteria:

- Complete an application for the program
- Graduate from high school (or possess a GED, HiSET, or Adult Education Diploma)
- Provide an official copy of prior college transcripts, if appropriate
- Applicants must possess and provide a valid drivers license

Your Road to *Success*

CAN BE COMPLETED IN
3 SEMESTERS

AUTOMOTIVE CURRICULUM:

Fall Semester

AUTO 110G—Automotive Maintenance and Light Repair

AUTO 125G—Automotive Electronics I

Spring Semester

AUTO 120G—Engine Mechanical

AUTO 130G—Automotive Electronics II

Summer Semester

AUTO 140G—Braking Systems

AUTO 150G—Suspension and Steering

Courses are subject to change.

There are scholarships available to students through the New Hampshire Automotive Education Foundation. Students will also get connected with jobs in the industry that will not only help them gain hands-on experience that coincides with course instruction, but there may be tuition assistance available through their employer under NHADA sponsored grants.
