

BIOLOGICAL SCIENCE

Associate in Arts

Great Bay's Biological Science Associate in Arts Degree serves the student who is interest in Biological Sciences and intends to transfer to a 4 year institution. Typically students who enroll into the Biological Sciences A.A. Degree are potentially looking at Biology as a minor or are interested in programs that require a varied set of major-related courses such as Wildlife Conservation, Sustainable Agriculture or Marine Biology.

In comparison to the A.S. degree in Biological Sciences, students enrolled in the A.A. degree program in Biological Science will graduate with a greater number of general education credits completed, but with fewer credits in the sciences.

When selected appropriately, all courses are transferrable to the University of New Hampshire (with the exception of MATH 150G College Algebra).

Career Possibilities

Job Title	Average Salary
Technical Writer	\$70,500
Organic Agricultural Manager	\$68,000

The careers listed above will require additional education beyond an Associate Degree. For more information about the outlook and trends, please visit the Bureau of Labor Statistics: www.bls.gov.
