

DIGITAL MEDIA COMMUNICATIONS

Associate in Science

Students enrolled in Great Bay's Digital Media Communication Associate in Science Degree will gain a comprehensive of knowledge and hands-on experience in a variety of graphic design, web design and animation courses using industry standard software.

The program requires a 1 credit portfolio capstone course. Courses are offered on a rotating semester basis and many courses are delivered in a hybrid format. A basic understanding of computers, in both Windows and Macintosh platforms and an appreciation for design is desirable for success.

The Digital Media Communications program enables students to build their design and technology skills to prepare for an entry level career in graphic design for print and digital communication, as well as offer options for transfer to a four-year program.

Career Possibilities

Job Title	Average Salary
Web Developers	\$53,500
Multimedia Artist & Animator	\$30,000
Graphic Designer	\$42,000
Film & Video Editor	\$63,000

The careers listed above may require additional education beyond an Associates Degree. For more information about the outlook and trends, please visit the Bureau of Labor Statistics: www.bls.gov.
