

ENVIRONMENTAL SCIENCE

Associate in Science

Great Bay's Environmental Science Degree is for students who intend to transfer to a four-year institution, to pursue a degree in environmental studies, environmental policy, environmental science, ecology, natural resources management, or related fields.

The Environmental Science program focuses on the interactions between the physical, chemical and biological elements of the environment. Providing a diverse environmental science foundation, it is designed to provide a solid social scientific substance for students with a broad range of interests related to the environment.

Great Bay offers articulation agreements to a variety of New England Colleges and universities, small class size with individual attention from instructors and advisors, and credentialed faculty with extensive academic experience.

Career Possibilities

Job Title	Average Salary
Environmental Scientist	\$78,980
Industrial Production Manager	\$116,970
Conservation Scientist & Forester	\$68,300
Environmental Engineer	\$100,090

The careers listed above may require additional education beyond an Associates Degree. For more information about the outlook and trends, please visit the Bureau of Labor Statistics: www.bls.gov.
