

Home Energy Assistance Application Deadline Extended!

Because of the economic effects of the COVID-19 pandemic, you may have seen a drop in your income.

The Low-Income Home Energy Assistance Program (LIHEAP) can provide some credit on home heating and/or electric bills (as well as a credit toward rent, if heat is included in your rent and you are not otherwise receiving rental assistance). LIHEAP is accepting applications (using recent income information) until May 29th for this year. To begin your application over the phone, call Rockingham Community Action at 603-431-2911.
