\* If your financial aid is complete, you may elect to use your remaining Title IV funds to purchase or rent books and supplies from the campus bookstore. If you select yes for this authorization, the book advance will automatically be set up for you at the campus book store. Confirmation of the book advance and spending limit may be found on your SIS account. You must show your school ID (or other government-issued picture ID) and a copy of your schedule at the bookstore when making your purchase. Your book advance may only be used during the book advance period, usually two weeks prior and three weeks following the beginning of each semester. The amount of your book and/or supply purchase will be charged to your student account. Your remaining Title IV credit balance will be applied to these charges.

\* Federal regulations permit students to authorize Title IV financial aid funds to pay for current semester non-institutional educationally related charges such as school health services, laboratory fees, parking and library fines, parking permits, bookstore charges, transcript and graduation fees, on-campus childcare service charges and other miscellaneous fees and fines that the student incurred. If you are eligible for federal financial aid in excess of tuition and fees, and you wish to use this excess to cover current semester non-institutional charges, you must authorize the College to pay these charges.

\* Federal Title IV financial aid funds are restricted to payment of current tuition, fees, on campus room and board and up to \$200 of prior year tuition, fees, and on campus room and board. You may authorize use of these funds to pay for up to \$200 of prior year other educationally related expenses such as school health services, laboratory fees, parking and library fines, parking permits, bookstore charges, graduation fees, and other miscellaneous fees and fines that you have incurred.

\* CCSNH encourages students to borrow responsibly. If a dependent student borrows the maximum amount of loans their freshman and sophomore years, they would owe a total of \$12,000. With an interest rate of 4.53%, this student would have a \$124 monthly payment for ten years. The total amount paid back would be \$14,924. If an independent student borrows the maximum of loans their freshman and sophomore years, they would owe \$20,000. With an interest rate of 4.53%, this student would have a \$207 month payment for ten years. The total amount paid back would be \$24,873. Remember, your unsubsidized loan accrues interest while you are in school! These repayment examples assume that the student is paying the interest charges on any unsubsidized loans and is not capitalizing the interest while in school. If the student is capitalizing the interest, the cumulative payments and total interest charges will be higher than shown here.
